

FREEWILL OFFERINGS

The co-founder of Unity, Charles Fillmore, encouraged members to work on eliminating selfish ideas of the mind - *'A step in this direction is the gradual introduction of the 'freewill offering' plan to replace the world's commercial standard of reward for services.'*

The Divine Law of equilibrium in financial matters corresponds to the practice of Giving and Receiving - *'The law is based on love and justice, and it equitably and harmoniously adjusts the affairs of men (all people). It goes even further, for it restores a harmony and balance in both mind and body that results in happiness and health as well as prosperity.'*

EmpowerLife Melbourne continues this tradition by giving its activities on a Freewill Offering basis.
